

DELUXE EXAMINATION CASE

This **Doctors Deluxe Examination Case** contains most of the requirements for the busy doctor!

Our specially packaged Doctors Deluxe Examination Case comes in a black, elegant Tosca Attache case. Your purchase will include two **Tuning Forks** - C128 and C256 - from Arno Barthelmes & Co™ of Germany, a **National Hospital Pattern Reflex Hammer**, a stylish durable **Liberty Penlight Torch** and a quality **Liberty Pen** with convenient nightlight. Also included in the case is a 2 Metre **Retractable Tape Measure**, one box 100 **Sterile Neurotips**, 5 **Tongue Depressors**, Spiral **Index Cards**, 2 jars containing 2 **Die**, 1 **Key**, 1 **Coin** and **Cotton Wool**.

The **ideal** purchase!

Tuning Forks

Made by Germany's oldest tuning fork manufacturer, Arno Barthelmes & Co. Used in the fields of medicine, education, music, bell-testing and organ building. Tuning forks are important instruments in simulating acoustical phenomena for ear, nose and throat specialists and neurologists.

Liberty Penlight Torch

Diagnostic professional penlight is easy to use. The pre-focused pinpoint lens directly illuminates eyes, ears, and throat. Activation is made simple by depressing the pocket clip.

Neurotips™

Neurotips are sterile, single-use neurological examination pins which avoid the risk of cross-infection and skin puncture.
