

HOT & COLD PACKS INSTANT COLD COMPRESS - UREA

The Liberty Instant Cold Compress temporarily relieves minor pain and swelling for sprains, aches and sore joints. It is conveniently disposable with no pre-chilling required for quick, effective relief. Product becomes cold on its own after activation.

The Liberty Instant Cold Compress is manufactured with urea instead of ammonium nitrate. Not only is this type of instant ice safer, but it is better for the environment. Convenient and portable, for use whenever and wherever cold therapy is needed. Store in a cool, dry place.

Usage

Simply squeeze the pouch. The contents become immediately cold and remain cold for 14-40 minutes and achieves temperatures as low as -2°C

BODY WARMER SELF ADHESIVE

Usage

Open the outer package and shake gently, leaving the internal pack to activate with exposure to the air. It will gradually get warm and once temperature is reached it will last for around 12-15 hours, providing warmth for the user. Temperature can reach 50-68°C. Product provides long lasting warm to assist user in cold weather. Comes with adhesive to apply to clothing.

INTBODYWARMER

MAGIC CAT BODY WARMER

Usage

To activate warmer, click metal disk by bending. Warmer has been activated if clear liquid begins turning white and solidifying resulting in heat. To reuse, place warmer in simmering water only for several minutes until all white crystals have dissolved. Remove from water and allow to cool. Your warmer is now ready to reuse.
