

MEDICAL TUNING FORKS

Ragg

Tuning Forks under the Ragg™ name are manufactured for Medical and Scientific industries worldwide. A new market has also emerged in recent years for Alternative Healing Therapy. All the Ragg™ Tuning Forks are manufactured in Sheffield UK from special high grade materials. The Ragg™ trade mark guarantees accuracy and best quality workmanship. Widely used by general medical practitioners for simple hearing tests and also for more sophisticated testing including vibratory sensation through bone and tissue structures.

- Typically stainless steel
- Does not use weights
- Includes foot and ridged grip pad - Gardiner Brown pattern
- Polished finish
- Quality made in Sheffield UK
- The most well know medical tuning fork

German

Made by Germany's oldest tuning fork manufacturer, Arno Barthelmes & Co., combines a total of more than 115 years experience and tradition with flexibility in developing new ideas. The high quality specialist tuning forks they manufacture, are used in the fields of medicine, education, music, bell-testing and organ building. Tuning forks manufactured by the Arno Barthelmes specialized workshop in Zella-Mehlis are important instruments in simulating acoustical phenomena for ear, nose and throat specialists and neurologists.

- Lightweight Alloy
- Available with and without foot
- guaranteed individual testing of each fork
- Long vibration period - using weights
- High-quality pure tone
- Long lasting tone stability
